

## **CS 490/491L Progress Template.**

*Instructions: Each team member should enter their activities performed for the capstone project in the last two weeks, as well as their expected activities for the next two weeks, along with anything holding them up on completing their activities. These should be discussed by the team and their advisor(s) during the weekly/biweekly meetings, and the advisor(s) should sign and date the sheet indicating a correct assessment of the team's progress. Students need to upload a signed and scanned version to Canvas.. Progress reports uploaded to Canvas without a signature and score for progress will receive a 0 for progress.*

**Team/Project Name:** CSUN Dashboard - White Volley Girls

**Team Member #1:** Christian Jarmon

What I did since last progress report:

- Finished formatting prerequisites for every class in every subject
- Started writing a parsing algorithm for prerequisites for purposes of displaying and computing accessibility of the course.
- Finalized website design with designers and discuss user experience
- Synced with Database Designer on database schemas and ideas regarding optimization techniques if they are ever needed

Anything holding me up on my last progress report's expected activities:

- Integrate account infrastructure with frontend infrastructure.
  - Just haven't started this.

What I plan to do before the next progress report:

- Finish the account infrastructure.
- Build databases for Professors, Classes, Ratings.
- Finish writing the parsing algorithms.

## **Team Member #2: Michael Balian**

What I did since last progress report:

- Worked with Christian on analyzing the wire frame he created for the student planner page
- Created page with react for the student planner page, functionality works need to polish on details
- Working on a rough sketch of how our professor ratings page will look
- Made basic react components with static data for the professors ratings page
- Teamed up with David to get an idea of what he has in mind for the majors information page
- Able to fetch and work with backend Nima and Christian worked on

Anything holding me up on my last progress report's expected activities:

N/A

What I plan to do before the next progress report:

Finish making a functional page for the professors ratings. Go back to polish off some details on the student planner page. Will continue to work with David to get a full grasp of how the majors page will look and how it will be linked to the rest of the application.

## **Team Member #3: Nima Shafie**

What I did since last progress report:

Attempting to get the backend/frontend working together on Heroku with free hosting (taking a bit longer to do due to the nature of the folder structure along with Python Flask & JavaScript React differences) Configuring Heroku to automatically pull from our GitHub with our latest commits to prevent manual pushing to Heroku version control.

A bit more progress on user registration, however spending more time on hosting solution

Successfully calling files in different folders using Python for testing purposes

Anything holding me up on my last progress report's expected activities:

N/A

What I plan to do before the next progress report:

Have the software project hosted hopefully on a free service and working properly

Begin implementing testing

#### **Team Member #4: David Huezo**

What I did since last progress report:

- Gotten a bit more comfortable about how react works and using the html aspect of it.
- Started to create a template for every page for each major.

Anything holding me up on my last progress report's expected activities:

- I've had a bit of difficulty trying to get a sign in window to pop up from clicking the sign in button, so I've decided to save it for later.

What I plan to do before the next progress report:

- Finish up the design template for every major under the majors page
- Finish up the sign in page if I finish designing

**Date:** 24th September

#### **Team Progress (0 -- 3): 3**

*0 -- no progress has been made by the team*

*1 -- insufficient progress has been made for the team to complete their capstone*

*2 -- sufficient progress has been made for the team to complete their capstone*

*3 -- excellent progress has been made by the team*

#### **Report Quality (0 -- 3): 3**

*0 -- missing or empty report*

- 1 -- report briefly written with incomplete sentences, lacking descriptions of work*
- 2 -- well written report with sufficient description of work performed since last progress report*
- 3 -- excellently written report with detailed description of each team members progress*
