What I did since last progress report:
- I started playing with CSS files and created a footer for all of the pages using a little bit of CSS. I also made a few other changes to tiny little things like the header and other small things, trying to use CSS more.

Anything holding me up on my last progress report's expected activities:
- N/A

What I plan to do before the next progress report:
- Continue playing around with CSS, the website is starting to look good, it's mostly just the last bit of functionality, like the sign in page, so maybe I could start linking that up.
